

# **PRESS RELEASE**

## **SAHCOL MIGRATES TO UNISYS COMMON USER ENVIRONMENT**

The *Skypower Aviation Handling Company Limited* (SAHCOL) has now migrated into the **Unisys Departure Control System** common user terminal.

This migration makes SAHCOL the first Ground Handling Company in Nigeria to be accommodated in this environment.

The system which is a more advanced technology has SAHCOL in the class of Ground Handlers that could provide Passenger Handling services to any airline in the world, due to Unisys capability to interface with many advanced technology used by airlines in Europe and other nations of the world.

The advantages of this migration includes the ability of SAHCOL to check-in passengers at any check-in counter within the terminal without restriction, total elimination of congestion at the check-in counters, elimination of power outages since the system operates even in the case of power outage, and check-in is faster and smoother, thereby taking care of clients complaints of slow response.

This has now finally laid to rest the Imuse controversy at the Murtala Mohammed International Airport, Lagos.
